

# **SUGAR REGULATORY ADMINISTRATION**

## **CITIZEN'S CHARTER**

Updated Version: MARCH 2022

## **I. Mandate:**

The legal mandate of SRA is embodied in Executive Order No. 18 dated May 28, 1986 creating the Sugar Regulatory Administration. It states that the policy is to promote the growth and development of the sugar industry through greater participation of the private sector and to improve the working conditions of the laborers.

RA 10659 or the Sugar Industry Development Act of 2015 further declares the policy of the State to promote the competitiveness of the sugarcane industry and maximize the utilization of sugarcane resources, and improve the incomes of farmers and farm workers, through improved productivity, product diversification, job generation, and increased efficiency of sugar mills.

RA 9367 or the Biofuels Act of 2006 mandated SRA as member of the National Biofuel Board (NBB) to develop and implement policies supporting the Philippine Biofuel Program and ensure bioethanol feedstock supply and security of domestic sugar supply.

## **II. Vision:**

By 2040, the Philippines shall have a globally competitive sugarcane industry that supports the food, power, and other related industries through an institutionally competent SRA and committed stakeholders, for a secured future for Filipinos.

## **III. Mission:**

SRA is a Government-Owned and Controlled Corporation which formulates responsive developmental and regulatory policies, and provides RD & E services to ensure sufficient supply of sugarcane for a diversified, sustainable and competitive industry that improves productivity and profitability of sugarcane farmers and processing industries and provides decent income for workers towards enhancing the quality of life of Filipinos.

## **IV. Service Pledge:**

We, the Officials and Employees of the Sugar Regulatory Administration, in the pursuit of high quality standards of service to our clientele, do hereby pledge to commit ourselves to perform our duties and responsibilities with utmost integrity, competence and dedication in order to work for the upliftment of the social and economic status of the sugar industry and its workers.

We offer our collective and relentless efforts to subscribe to the thrust of our government towards improving the performance and cost efficiency of our agency in order to help elevate the sugar industry in the arena of global competitiveness.

We adhere to the principle of transparency and accountability. We will see to it that national interest prevails over personal motives and eradicate graft and corruption.

We support the government's goal in sustaining the development of the sugar industry in order to generate more job opportunities and help develop the countryside by undertaking effective and relevant regulatory functions and research

and extension programs in coordination with the private sector that our clients could benefit from.

We uphold the dignity of our Agency by crossing the road of excellence and people empowerment in developing sound careers in public service through continuing programs of personnel growth and development. We will pursue our goals objectively to attain office efficiency and good governance gearing towards responsiveness.

So help us God.
